Special Edition 3300 GTO Black Racing, optimized for Ultra-Violet primers

SAGOLA

an Elcometer company

Special

- Special 1.2 EVO setup: ultrafine atomization with controlled thickness for quick UV lamp drying and easy sanding.
- Wide and uniform fan: High application speed, excellent coverage, and low consumption.
- Matte black 125 ml cup: prevents product drying; no cleaning required between applications. (600 ml matte black optional)
- Forged and anodized black body: maximum durability.
- New "Soft Flow" valve: smoother trigger action.
- Joint-free packing glands: enhanced durability and easy maintenance.
